Re: Letter of recommendation

To whom it may concern,

On behalf of the City of Moberly, please accept this letter of recommendation regarding Serpico Talent Solutions' services to the City of Moberly. After months of not having success recruiting for a difficult position in our water department, we engaged Serpico Talent Solutions (STS) to fill the opening. Mike Serpico took the time to come to our offices, meet with our supervisors, and learn the culture of our city. He then spent time in the field understanding the responsibilities required for the position.

Mike worked closely with our HR department submitting qualified candidates to interview. He screened numerous applicants and provided us the most experienced candidates that met our job description and fit our culture. The entire recruiting process was communicated up front, reduced the time and effort by our staff, and provided us with high quality individuals.

It is without any reservations that I wholeheartedly recommend Mike Serpico and his company to meet your staffing needs. I urge you to give them your consideration. If I can answer additional questions, please feel free to contact me at your convenience.

Sincerely,

Brian Crane  
City Manager
